And it isn't fun now. Being left out hurts.

But that is exactly what the Sask Party government is doing to you. They changed the education property tax system to benefit some communities. But they chose not to extend those same benefits to Saskatoon.

Canora: 48%

If you lived in Canora, like Education Minister Ken Krawetz, your education property taxes would be slashed by about 48%.

Swift Current: 14%

If you lived in Swift Current, like Premier Brad Wall, you would save about 14% in education property taxes.

Saskatoon: Just 3%

Because you live in Saskatoon, all you get from the Sask Party government is a token reduction of just 3%.

Clearly, Saskatoon is not a priority for Brad Wall and the Sask Party government.
